25X1

1. New factory buildings were under construction at the beginning of 1952 in the Cieplice suburb of Jelenia Gora (Hirschberg) on the site of a former German spinning mill which was destroyed during the war. 25X1
2. The following observations were made on the building site:
 - a. Production shop, 70 x 70 meters, almost completed. 25X1
 - b. Warehouse (single-floor building), 10 x 30 meters, completed.
 - c. Electric power plant, 30 x 60 meters, a three-story building, completed, but not yet fully equipped. The assembly of electric power installations was in progress; four foundations for four steam turbines were installed on the ground floor; and three-phase cables of 95 sq. mm. thickness had been laid from the foundations intended for the dynamos.
 - d. The building site is strictly guarded by the Industrial Guard.
3. The ex-German Henrietten-Huette and Dorotheen-Huette in Przemkow (Primkenau) approximately 45 km. northwest of Legnica (Liegnitz), which were stripped of machinery by the Russians and were out of use until the end of 1952, have been repaired and re-equipped with machinery.
4. In March and April 1953 it was announced in the neighborhood of Przemkow that 3,000 to 4,000 workers were needed for the resumption of work at the foundries. These foundries are to be subordinate to the Dolnoslaskie Zaklady Metalurgiczne (Lower Silesian Metallurgical Works) in Nowa Sol (Neusalz).
